

ANNUAL

INDEX

**Public
Works**

Volume/99

January/December 1968

Published by Public Works Publications

200 South Broad Street, Ridgewood, N. J. 07451

*This Volume of
PUBLIC WORKS is
available on
microfilm through
University Microfilms,
300 North Zeeb Road,
Ann Arbor, Mich. 48106*

**ANNUAL
INDEX**

PUBLIC WORKS INDEX

January-December 1968 • Volume 99

HIGHWAYS AND STREETS

Bituminous Pavements

New Tricks for Old Streets	Sep.—101
Bituminous Surfaces on Stabilized Bases Serve County Well	Sep.—103
Dix Seal Solves Our Surfacing Problems	Oct.—105
Extending the Service Life of Asphalt Concrete Pavements	Nov.—93

Bridges, Culverts and Tunnels

Colorado River Bridge Wins Prize Award	Jan.—98
Lightweight Assault Bridge for the Army	Jan.—124
Bridge Design Speeds Construction, Lowers Cost	Feb.—71
Stainless Steel Resists Corrosive Runoff	Feb.—100
Precast Concrete "Instant Bridges" Improve Local Roads	Mar.—76
This Bridge Will Never Need Painting	Apr.—108
How to Avoid Ripping Up City Streets	Apr.—115
Shop Fabricated Parallel-Wire Strands for Suspension Bridges	May—66
Moving Mountains Might Be Easier	Jun.—120
We Produce Our Own Television Show	Jul.—102
Safety Considerations Cause Revolution in Overpass Design	Aug.—84
Steam Cleaner Quick-Thaws Frozen Culverts	Oct.—107
Inspecting and Maintaining Turnpike Bridges	Nov.—84
Why Pipe a Brook?	Nov.—127
Galvanized Suspension Bridge Serves School Children	Dec.—70
Study Evaluates County's Bridges	Dec.—80

Concrete Pavements

Experiments in Joint Spacing With Plain Concrete Pavements	Jan.—56
Building Nebraska's Smoothest Highways	Sep.—105

Construction Methods

Hazards at Highway Construction Sites	Apr.—103
Diamond Bits Core Samples of New York Roads	May—93
Current Paving Practices in Washington	May—103
Optimum Methods of Trench Backfill	Jun.—101
Trans-Mountain Highway Links El Paso with El Paso	Oct.—129
Work Site Protection Requires Timely Communication	Dec.—65
Face Lifting for a Modern Freeway	Dec.—78

Design

Experiments in Joint Spacing With Plain Concrete Pavements	Jan.—56
The Influence of Highway Characteristics on Accident Rates	Mar.—101
Engineering Guidelines Developed for Citywide Sidewalk Program	May—98
Air Rights: An Answer to the Urban Displacement Problem	Jul.—93
Residential Retaining Wall Designs	Aug.—79
Design Concepts for an Urban Inner Belt	Sep.—72
Eliminating "Fudged" Curb Returns	Sep.—80
Environmental Damage by Highways Can Be Reduced	Oct.—121

Drainage

Precast Concrete "Instant Bridges" Improve Local Roads	Mar.—76
Clay Pipe Underdrains—Plain or Perforated?	Mar.—90
Rainstorms Made to Order	Mar.—95
Unique Solution to a Troublesome Problem	Nov.—70
Why Pipe a Brook?	Nov.—127

Equipment

Mechanization is Key to Low-Cost Tree Removal	Jan.—104
Central Equipment Pool Increases Efficiency	Mar.—82
Diamond Bits Core Samples of New York Roads	May—93
Performance and "Total Cost" Bid Sell Machine	Aug.—130
Suction Machines are Year-Round Servants	Sep.—98
Plan Bulldozer—A Disaster Resource	Oct.—98
Maintenance Men Get Out and Get Under	Oct.—101
Maintenance Safety Truck Provides Transport and Protection	Dec.—72

Esthetics & Beautification

Highway Plantings for Beauty and Function	Mar.—79
Trees for Parks and Streets	Mar.—120
Scenic Highway Award	Jun.—164
Common Sense and Street Trees	Jul.—54
Design Concepts for an Urban Inner Belt	Sep.—72
Environmental Damage by Highways Can Be Reduced	Oct.—121
Beautification Program Props Open Closed Doors	Nov.—90

Finance, Legal and Planning

From Force Account to Contract Street Maintenance	Jan.—76
Establishing Priorities for County Road Planning	Feb.—61
Touring By the Numbers—Why and How	Feb.—80
Planning and the Public Works Engineer	May—86
Computer System Saves 47,000 Man-hours per Month	May—88
Engineering Guidelines Developed for Citywide Sidewalk Program	May—98
Federal-Aid Funds for Traffic Improvements	Jun.—107
County Dilemma: Can It Afford Federal Aid for Hazard Correction?	Jun.—111
Sell Your Proposals With Topographic Models	Jun.—118
The Role of the Highway in Urban Development	Jul.—85
Transportation Maintenance Aided by Statewide Radio Network	Aug.—107

Materials

No Lost Time—Mobile Materials Lab Goes to Source	Jan.—59
This Bridge Will Never Need Painting	Apr.—108
Simple Tests Can Improve Soil-Aggregate Compaction	Jun.—116
Guide Rail Galvanizing Program Completed	Jul.—98
Loss of Prestress in Concrete	Oct.—66

Maintenance Plans and Programs

From Force Account to Contract Street Maintenance	Jan.—76
Maintenance on Interstate System Will Be Expensive	Mar.—73
The Maintenance Management Profile: How Does Your Organization Stack Up?	May—72
Inspecting and Maintaining Turnpike Bridges	Nov.—84

Parking

Increased Meter Fees Turn Over Parkers	Mar.—100
How a County Solved Its Parking Problem	Apr.—86
Parking Lot Design Preserves Shade Trees	May—95
Underground Parking Garage Protected Against Brine Damage	Aug.—126
Modular Parking Structure Meets Interim Needs	Sep.—86
Parking Lot Shares Highway Rights-of-Way	Oct.—96
Downtown Parking Lots—Beauty With Function	Nov.—72

Safety

Considerations for Intersections at Grade	Feb.—88
Policy on Detours	Feb.—106
The Influence of Highway Characteristics on Accident Rates	Mar.—101
Hazards at Highway Construction Sites	Apr.—103
Aluminum Median Barrier Beam Installed	Apr.—130
An Experiment in Roadside Sign Location	May—78
County Dilemma: Can It Afford Federal Aid for Hazard Correction?	Jun.—111
More Than 6,000 "Good Turns" Every Month	Jun.—130
Guide Rail Galvanizing Program Completed	Jul.—98
Making Highway Safety Practical	Dec.—62
Work Site Protection Requires Timely Communication	Dec.—45
A Generation of Effort Benefits Pedestrians	Dec.—67
Safety Evaluation of Rail-Highway Grade Crossing	Dec.—71
Maintenance Safety Truck Provides Transport and Protection	Dec.—72
Face Lifting for a Modern Freeway	Dec.—78
A Tactical Displacement	Dec.—114

Snow and Ice Control

Snowdrift Control Before the Fact	Aug.—72
A Study of Chicago's Winter Maintenance Organization	Aug.—86
Closed Runways Are Costly to All	Aug.—94
Snow Fighter With Year-Round Versatility	Aug.—116
Performance and "Total Cost" Bid Sell Machine	Aug.—130
Steam Cleaner Quick-Thaws Frozen Culverts	Oct.—107
Organizing for Winter Maintenance in an Urban County	Nov.—74

Stabilized Surface and Base

Bituminous Stabilization of Sand-Clay Base	Feb.—142
Building Streets on Clay—A Salty Story	Jun.—124
Bituminous Surfaces on Stabilized Bases Serve County Well	Sep.—103
One Billion Yards of Soil Cement	Nov.—122

Street Cleaning

Street Cleaning in Searsdale	Mar.—116
Suction Machines are Year-Round Servants	Sep.—98

Street and Area Lighting

Research for Better Freeway and Interchange Lighting	May—96
Lamp Clusters on 100-Foot Poles	May—118
Light Interchange	May—118
Unique Expressway Lighting System	Aug.—124
Engineers Specify Unique Signal Standard	Sep.—114
Connecticut Program for Damaged Lighting Standards	Oct.—106
Refuse Disposal and Street Cleaning in Newton	Dec.—112

Surface Maintenance

Slurry Seal for Airport Maintenance	Jan.—84
Sawing Pavement for Neater, More Durable Patches	Jun.—136
Heated Roller is Important	Sep.—81
New Tricks for Old Streets	Sep.—101
Dix Seal Solves Our Surfacing Problems	Oct.—105
Extending the Service Life of Asphalt Concrete Pavements	Nov.—93

Traffic Engineering

Effecting Immediate Improvements Through Traffic Engineering	Jan.—62
Considerations for Intersections at Grade	Feb.—88
An Experiment in Roadside Sign Location	May—78
Federal-Aid Funds for Traffic Improvements	Jun.—107
Study, Selection, Specification—Keys to Sound Traffic Engineering	Jul.—69
Raised Reflective Markers for Safer Night Driving	Aug.—103
Design Concepts for an Urban Inner Belt	Sep.—72
Making Highway Safety Practical	Dec.—62

Traffic Operations

Routine Line Striping Gets Special Attention	Jan.—71
Crosswalk Marking System Saves Time and Money	Feb.—64
A Short, But Effective Striping Season	Apr.—121
Major League Signs for a Major League City	Jun.—128
Toll Road Adopts Guardrail Coating System	Jun.—150
We Produce Our Own Television Show	Jul.—102
Gulf Freeway Operations Hide Few Secrets	Jul.—108
Small Organization Has a Big Maintenance Program	Sep.—108
Traffic Line Striping System	Oct.—136

Turf and Roadside Maintenance

The Maintenance of Highway Landscaping	Jun.—146
This Roadside Beauty is the Maintenance Engineer's Friend	Nov.—102

Surveying Methods

Walkin' and Talkin'	Jan.—60
Soil Surveys—Guide to Land Use and Development	Jan.—86
Placing Permanent Survey Markers	Mar.—112

REFUSE COLLECTION AND DISPOSAL

Collection Methods

Conversion to Municipal Refuse Collection Results in Multiple Benefits	Feb.—78
Larger Trucks Permit Reduction in Collection Crew Size	Apr.—106
Refuse Collection in Arkansas	May—68
New Collection Trucks Solve Refuse Problem	Aug.—103

Sanitary Fill

Determining Effects of Recomposition on a Landfill	Jan.—72
Road Commission Operates County Refuse Disposal Sites	Jun.—126
Elevating Scraper Speeds Work on Landfill	Jun.—152
Landfill Replaces Controversial Town Dump	Oct.—112
Communities Jointly Solve Refuse Problem	Oct.—156
Quantitative Study of Gas Produced by Decomposing Refuse	Nov.—86
Portable Wind Fence Controls Litter at Landfills	Nov.—108
Land Conservation by Aerobic Landfill Stabilization	Dec.—95

Incineration

Demonstration Incinerator to Have Electrostatic Precipitator	Mar.—99
Developing a Prototype Incinerator	Mar.—150
Operation of a County Refuse Incinerator	Feb.—54
A Sequel—Solving the Problems of a Pit Incinerator	Feb.—84
Sawing Firebrick the Easy Way	Apr.—120
Modular Incinerator System is Developed	Jul.—116
Chicago Awards Contract for Largest Incinerator	Aug.—62
New Driftwood Incinerator for New York Harbor	Sep.—99
Montreal Incinerator: Design for a Better Environment	Oct.—128

Other Disposal Methods

Refuse/Sludge Disposal by Pulverization in Wetherby, England	Jan.—124
Composting Operation Handles Refuse and Sludge	Mar.—84
Waste Wood From City Parks for Paper Pulp	Aug.—62
Model Plant to Demonstrate Composting	Aug.—64
Machine Chews Up Demolition Materials	Sep.—138
The Bureau of Mines Looks at Refuse Disposal and Recovery Possibilities	Dec.—85

Wastes Management

Salable Items In Refuse	Mar.—110
Solid Waste Collection and Disposal Operations	Feb.—54
The Refuse Disposal Problem	Feb.—116
Bonds For Regional Refuse Disposal	Feb.—136
Operation Junklift—A Community Public Works Program	Apr.—96
Transfer Stations Solve Dump Problems	May—84
State Regulation of Solid Waste Disposal	May—102
Sanitation Services in Detroit	Jun.—158
Decision Trees in Solid Wastes Planning	Jul.—74
Refuse Disposal Via Railroad	Jul.—92
Proposed Disposition of Junked Cars	Jul.—106
Solid Waste Study for Westchester County	Oct.—126
Town of Hempstead Faces Refuse Disposal Problems	Nov.—62
Waste Disposal Studies	Dec.—60
Solid-Waste Disposal Study	Dec.—102

SEWERAGE AND SEWAGE TREATMENT

Finance, Legal and Planning

Development of a Regional Sewerage Facility	Jan.—84
California County Plans a Closed Water System	Mar.—70
North Dakota Policy on Waste Stabilization Lagoon Facilities	Feb.—136

Sewer Systems—Construction

Helicopter Airlift Aids in Building Sewer System	Jan.—122
Hydraulic Backhoe Meets Challenge of a Storm Sewer Job	Feb.—92
How to Avoid Ripping Up City Streets	Apr.—115
When Should New Sewers be Photographed?	Apr.—148
Optimum Methods of Trench Backfill	Jun.—101
Air Testing of Sewer Lines is Practical and Worthwhile	Jun.—104
Insulating Water and Sewer Lines	Jun.—113
Mayor's Efforts Create Safety Awareness in Community	Jun.—122
Four Difficult Sewer Construction Problems	Aug.—91
Laser Alignment System Speeds Sewer Construction	Sep.—130

Sewer Systems—Design

Development of a Regional Sewerage Facility	Jan.—84
Sewer System for a State Park	Apr.—146
Subsurface Investigations: A Primary Factor in Sewer Construction Cost	May—79
Variation of Wastewater Quality Parameters	May—81
Submerged Sanitary Sewer Protects Lake Front	Aug.—64
Practical Hydraulics for the Public Works Engineer—Part 1	Sep.—83
Practical Hydraulics for the Public Works Engineer—Part 2	Oct.—114
The South Lake Tahoe Water Reclamation Project	Dec.—87

Sewer Systems—Maintenance

Better Sewer Maintenance to Attract Industry	Feb.—54
Getting the Mud Out of Sewers With Chemicals	Feb.—86
Philadelphia's Sewer Reconstruction Program	Apr.—123
Special Trouble Van Rolls to Combat Sewer Emergencies	Jun.—115
Wet Well Woes	Aug.—98
Bargain Repairs with TV and Grout	Sep.—106

Sewage Pumping

Maintaining Sewage Pump Efficiency	Mar.—104
Variable-Speed Pumping System at a Wastewater Plant	Jun.—180
Practical Hydraulics for the Public Works Engineer—Part 3	Nov.—77
Variable Speed Pumps Solve Difficult Problem at Sewage Pumping Station	Nov.—82

Storm Drainage

Rubber Storage Tanks for Combined Sewer Overflows	Dec.—116
---	----------

Sewage Treatment—Design

Solids Handling and Disposal	Jan.—67
Design and Operation of a Combined Waste Treatment Plant	Feb.—66
Conversion from Primary Treatment to Extended Aeration	Apr.—110
Variation of Wastewater Quality Parameters	May—81
Water Pollution Control for Hilo, Hawaii	Aug.—132
Aluminum in Wastewater Treatment Plants	Oct.—94

Sewage Treatment—Industrial Wastes

Fish Processing Upsets Wastewater Plant	Jan.—130
Design and Operation of a Combined Waste Treatment Plant	Feb.—66
Expanded Municipal Wastewater Plant Provides Citrus Waste Treatment	May—91
Secondary Treatment for Kodak Wastes	Jul.—138
New Method of Radioactive Waste Disposal	Sep.—112
Acid Mine Drainage Water Demonstration Plant	Dec.—58

Sewage Treatment—Operation and Maintenance

Performance Study of a Municipal Extended Aeration Plant	Mar.—85
New York City Converts to Hypochlorites	Mar.—88
Diversion Structure Experience in Allegheny County Sewerage System	Apr.—64
Stabilized Chlorine Dioxide for Odor Control	Apr.—166
Protecting Lake Tahoe Against Eutrophication	May—126
Steam Cleaning Aids Sewage Plant Maintenance	Jul.—78
Anti-Corrosion Coatings for Sludge Barge	Jul.—84
Waste Treatment in Gary	Aug.—136
Robot Digester Cleaner	Oct.—150

Treatment Methods and Research

Solids Handling and Disposal	Jan.—67
An Automatic Mobile Sampling and Gaging Unit	Jan.—78
New Wastewater Treatment Test Facility	Jan.—106
Performance Study of a Municipal Extended Aeration Plant	Mar.—85
New York City Converts to Hypochlorites	Mar.—88
Radiation Treatment of Wastewater	Apr.—62
Aerial Surveillance in Pollution Control	Apr.—64
Total Organic Carbon as a Wastewater Parameter	Apr.—89
"Bubble-Gun" Aeration for Wastewater Treatment	Apr.—138
Expanded Municipal Wastewater Plant Provides Citrus Waste Treatment	May—91
Synthetic Detergents and Septic Tanks	Jun.—66
Municipal Pilot Plant to Test Advanced Wastewater Treatment Methods	Jul.—124
Solving Pike's Peak Water Pollution Problems	Sep.—66

	Month and page
Abstract of Report on Advanced Waste Treatment Studies	Sep.—66
Correlation of BOD and COD for Synthetic and Domestic Waste Influent	Oct.—100
Acid Mine Drainage Water Demonstration Plant	Dec.—58
The South Lake Tahoe Water Reclamation Project	Dec.—87

Instrumentation

An Automatic Mobile Sampling and Gaging Unit	Jan.—78
---	---------

WATER SUPPLY AND PURIFICATION

Finance, Legal and Planning

One-Stop Electric and Water Meter Reading	Jan.—66
California County Plans a Closed Water System	Mar.—70
Developing a Master Plan for Water Distribution	Feb.—58
Fresh Water for Coalings	Apr.—119
A Comprehensive Plan for Regional Water Development	Jun.—97
New Computerized System Reads Utility Meters	Jul.—56
Water Use in Seattle Sets New Record	Aug.—124
Cincinnati Water Works Makes Long Range Plans	Oct.—172
Master Water Improvement Plan for Greater Saginaw	Dec.—82

Water Pumping

How Much NPSH Should Your System Provide?	Jan.—74
Practical Well and Well Pump Testing	Oct.—108
Practical Hydraulics for the Public Works Engineer—Part 3	Nov.—77
Master Water Improvement Plan for Greater Saginaw	Dec.—82

Reservoirs and Tanks

New Reservoir Involves Six Miles of Railroad Relocation	Apr.—62
Pumped Storage Facility Meets Suburban Area Needs	May—74
Water Tank—Office Building— Restaurant	Jun.—160
Elevated Water Tank Raised by Jacking	Oct.—158

Supply Lines and Distribution

Constructing a Water Transmission Line on Challenging Terrain	Jan.—90
Plastic Pipe for Main to Meter Service	Jan.—116
How to Tap Steel Water Pipe	Mar.—93
Detroit's Regional Water System Reaches Flint	Mar.—106
River Crossing Facilitated with Plastic Pipe	Feb.—95
Fire Hydrant Painting Can Be Simplified	Apr.—98
How to Avoid Ripping Up City Streets	Apr.—115
Hitting the Jackpot with a Water Meter Program	May—107
Sculptured Steel Water Tank Will Combine Esthetics With Function	May—132
Insulating Water and Sewer Lines	Jan.—113
PVC Pipe for St. Augustine	Jul.—128
Special Truck Frees Other Equipment	Aug.—80
Practical Hydraulics for the Public Works Engineer—Part 1	Sep.—88
Practical Hydraulics for the Public Works Engineer—Part 2	Oct.—114
New Products and Materials Speed Water Service Installations	Oct.—127
Fire Department Has Own Water Supply System	Nov.—96
Resistance Coefficients for Valves and Fittings to Flow of Fluids	Dec.—98

Water Treatment— Design and Operation

Factory-Built Water Plant Serves Recreational Area	Jan.—112
pH Adjustment Solves Clogged Filter Problem	Mar.—130
Desalting Plant Serves Small Community	Feb.—122
An Automated Iron-Removal Plant	May—100
Reclaiming Water from Water Plant Sludge	Jun.—100

Diatomite Filter Plant Offers Research Opportunity	Jul.—89
We Converted to Liquid Alum Treatment	Nov.—88
Safety Training for Water Plant Operators	Dec.—66

Instrumentation

Wisconsin's Mobile Water Quality Monitor	Aug.—99
Automation of San Antonio's Water System	Sep.—76
Practical Hydraulics for the Public Works Engineer—Part 2	Oct.—114

Treatment Methods and Research

Removal of Iron and Manganese from Low Alkalinity Waters	Feb.—72
150-mgd Desalination Test Module Under Construction	Feb.—129
Lagooning and Freezing for Disposal of Water Plant Sludge	Jun.—94
Diatomite Filter Plant Offers Research Opportunity	Jul.—89
Granular Carbon for Taste and Odor Removal	Jul.—126
Water Softening Plant Uses Continuous Ion Exchange Process	Aug.—92
Reverse Osmosis Permeators Now Commercially Available	Sep.—122
Unit Handles Color, Taste and Odor Problem	Nov.—116
Advances in Reverse Osmosis Desalination	Dec.—122

Water Supply and Sources

Avoiding Problems in New Wells	Apr.—93
Fresh Water for Coalings	Apr.—119
A Comprehensive Plan for Regional Water Development	Jun.—97
Water Records: An Inexpensive But Essential Water Management Tool	Jun.—109
Artificial Recharge Solves Water Problem	Sep.—82
The California Water Project and Earthquake Engineering	Nov.—65
No Water Shortage in Manatee County	Dec.—75

ADMINISTRATION AND PLANNING

Recommendations for Reorganizing a Populous County	Mar.—62
Is That Lawsuit Really Necessary?	Apr.—113
The Maintenance Management Profile: How Does Your Organization Stack Up?	May—72
Sell Your Proposals With Topographic Models	Jun.—118
Bureau of Engineering Organization for Richmond	Jun.—164
Employee Motivation Must Be Achieved— It Cannot Be Forced	Jul.—66
Is Flood Plain Management Part of Your Community Plan?	Jul.—71
The Role of the Highway in Urban Development	Jul.—85
Air Rights: An Answer to the Urban Displacement Problem	Jul.—93
Land and Water Resource Planning for a Seven County Area	Aug.—76
Leadership, Decision Making and the Professional in Management	Aug.—128
Engineering Alternatives and the Time Value of Money	Oct.—144
Coordination Through Cooperation	Nov.—68
Employee Safety in the Solid Wastes Industry	Dec.—74

AIR POLLUTION CONTROL

Air Pollution Rules Affect Paint Specifications	Jan.—124
A Third Step in Automotive Smog Control	Oct.—66
Automobile Use Ban Clears Air	Nov.—66

AIRPORTS

Slurry Seal for Airport Maintenance	Jan.—84
Closed Runways are Costly to All	Aug.—94
The Building of a Jet-Age Airport	Oct.—110
Airline Runway Grooving Evaluation	Oct.—134

BUILDINGS AND SERVICE CENTERS

Modified Industrial Building Serves as Public Works Garage	Jan.—82
Municipal Shop Complex Built Without Borrowing	Feb.—83
City Yards Can Be Built Economically	Feb.—93
Financing for a New City Hall	Apr.—164
Bargain Truck Stable Houses Borough's Vehicles	Jul.—83
New Building Constructed on Sanitary Landfill	Oct.—125

CIVIL DEFENSE AND EMERGENCIES

That Yellow Cloud Was Chlorine!	Jun.—174
Plan Bulldozer—A Disaster Resource	Oct.—98
The California Water Project and Earthquake Engineering	Nov.—65
Natural Disaster Hospitals	Dec.—121

DAMS AND FLOOD CONTROL

Rainstorms Made to Order	Mar.—95
Computer-Based River Management	Apr.—92

INSECT CONTROL

Mosquito Control Program Features Innovations	May—108
Ultra Low Volume Aerial Applications of Insecticides for Mosquito Control	Jun.—68
Rat Control as a Public Works Problem	Aug.—100

MUNICIPAL POWER

Electric Power Plant Operates by Remote Control	Jan.—88
--	---------

PUBLIC HEALTH

Disposal of Pesticide Containers	Mar.—136
----------------------------------	----------

RECREATIONAL FACILITIES

Sidewalk Benches Go Modern	Mar.—118
Careful Use of Chemicals Controls Lake Weeds and Algae	Jul.—80

URBAN TRANSPORTATION

What Is Involved in Transportation Project Planning?	Apr.—100
---	----------

GENERAL AND MISCELLANEOUS

A Successful Training Program for Engineering Aides	Jan.-81
Soil Surveys—Guide to Land Use and Development	Jan.-86
A Modern System for Filing City Plans	Feb.-76
University Offers In-Service Training	Feb.-90
Special Taxes Aid Removal of Crude Oil From Beaches	Jun.-166
Cost Cutting Through Xerography	Jul.-96
Computers "Watch" N. Y. Area Aircraft	Oct.-68
Man's Influence on the Weather	Oct.-102
Unusual Solution to Slide Stabilization	Nov.-95
Municipal Engineering in Kenosha	Dec.-58
Standard Specifications for Public Works Construction	Dec.-77

LEGAL ASPECTS OF PUBLIC WORKS

Municipal Water Rates To Areas Outside City Limits Subject to State Regulations	Jan.-42
Warning Signs Removed At Street Defect	Jan.-42
Child Drowns In Street Ditch	Jan.-42
Operation of a Joint Sewage Treatment Plant	Jan.-42
Notice of Accident Required	Feb.-138
City Erects Barricade As "Good Samaritan"	Feb.-138
Competitive Bids For Incinerator Plants	Feb.-138
Water Rate Discrimination	Mar.-144
Diver Injured In Municipal Swimming Pool	Mar.-144
Municipal Acquisition of Drains Constructed by Third Parties	Mar.-144
Another Attack On Municipal Immunity	Mar.-144
Mandatory Connection To Sewer System	Apr.-76
Billboard Ban Upheld	Apr.-76
Acquisition of Park and Recreation Areas	Apr.-76
City's Duty to Open and Improve a Dedicated Street	May-64
Detroit's Air Pollution Law Challenged	May-64
Sale of Municipal Electric System	May-64
Removal of Refuse: Organic v. Inorganic Material	Jun.-80
Basic Rules for Vacation of Streets	Jun.-80
Assessments Against Railroads for Street Improvements	Jun.-80
Front-Foot Assessment Challenged	Jun.-80
Sewer Assessments Contested	Jul.-60
Trailer Park Ordinance Held Unconstitutional	Jul.-60
City Liable for Snow Bank Accident	Jul.-60
Test Hole Borings At Variance with Plans	Jul.-60
Parking Eliminated In Front of Business Establishment	Aug.-70
Five-Ton Weight Limitation Held Void	Aug.-70
Sidewalk Defects: 2-Inch Rule Applied	Aug.-70
Snow Emergency Parking Ban Upheld	Sep.-62
Parade Permits: Question of Liability	Sep.-62
Meter Box Poses Danger to Pedestrians	Sep.-62
Liability for Clogging of Drains and Sewers	Oct.-86
Parking Lot Operation Held Governmental Function	Oct.-86
Clogging of Drains and Sewers	Oct.-86
Governmental Liability In Refuse Disposal Operation	Oct.-86
Minor or Trivial Defects In Sidewalks	Nov.-58
Litter Law Applied to Pamphlet Distribution	Nov.-58
Loss of Personal Property in Condemned Structure	Nov.-58
Fire Hydrant Failure Held Basis for Liability	Dec.-134
Failure to Extend Sidewalk Barricades	Dec.-134
Personal Liability of Municipal Employees	Dec.-134

ABOUT OUR COVER

John A. Robertson	Jan.-1 & 18
William E. Korbits	Feb.-1 & 18
George H. Eagle	Mar.-1 & 18
Joseph C. Kordella	Apr.-1 & 18
Edwin F. Hensch	May-1 & 18
H. Christopher Medbery	Jun.-1 & 18
Henry A. Barnes	Jul.-1 & 18
H. B. Wildschut	Aug.-1 & 18
J. Edward Meers	Sep.-1 & 18
Ross L. Clark	Oct.-1 & 18
Michael R. Pender	Nov.-1 & 18
Raymond D. Nixon	Dec.-1 & 18
